It is also particularly useful
in chronic and nervous complaints occurring in
debilitated and cachetic constitutions. Over Syphilis and the host of painful, disagrecable and
hitherto incurable affections resulting therefrom,
such as ulcers of the throat, larynx, nodes, dec,
and all those evils occasioned by an improper and
injudicious use of "mercury," it displays complete
control. It has been found to be a most useful

Another Spring has been discovered in the vicinity of the establishment, an analysis of which proves that it is a carbonated chalybeate, resembling the waters of Tunbridge Wells, the most celebrated of all the chalybeate waters of England. It is a mild and gentle tonic, and in the opinion of the physicians who have ex-amined it, and witnessed its effects in some cases during the last season, must prove beneficial in atonic dyspepsia, chlorosis, uterine, nervous and neuralgic affections connected with debility, and of especial service to persons living in malarious regions of country, whose blood has been robbed of its normal proportion of iron by repeated as-tacks of malarial fevers.

DR. SWAYNE'S

OMPOUND SYRUP of WILD CHERRY TELL IT IN GATH--PUBLISH IT IN THE STREETS OF ASKALON !

The greatest Medicine in the known world.

OF all the cures that have ever been recorded

we may safely say the annals of medicine cannot

furnish one to surpass this, which now stands as a living proof of the curability of CONSUMP TION, even when life had been despaired of. Read this extraordinary case: DECEMBER 25th, 1848. DR. SWAYNE-Dear Sir: Having contracted a evere cold, which settled upon my lungs, attended with a violent cough, pain in my side and breast, difficulty of breathing, I was attended by physicians of the first respectability, but my symptoms become very alarming; there was an al scess formed in my lungs, and made its way thro my side, and discharged large quantities of pres externally, so that my physician thought the pow-er or functions of one of my lungs were totally destroyed—therefore supposed the case entirely hopeless. This mournful state of things contin

but all failed to do any good. But there still be-ing a spark of hope left with me and my anxious parents, and having heard of the great virtues of your Compound Syrup of Wild Cherry, and its being approved of by physicians of the first eminence, I concluded to make a trial of it, and to my great satisfaction, my cough gradually grew better, the hole in my side began to heal, and I am now happy to say, from a poor and almost hopeless skeleton, I have become healthy, and weigh more than I ever have. All my neighbors can testify to the above fact. ABRAHAM HUNSICKER, 2 miles from Skippackville, Skippack township

Pennsylvania.

Permanently cured by Dr. Swayne's Compound CINCINNATI, February 19, 1847. Dr. SWAYNE-This may certify that eleven years ago last fall, I was troubled with the Asthma, which increased upon me in defiance of all the remedies I could hear of, until the year 1839-'40, when I was obliged to leave my native New French, Drawing and Painting, and Or-England for a milder clime, which had the effect

Asthma of Eleven Years Standing,

to mitigate my sufferings for three or four years, after which the disease increased until last winter. My sufferings were intense, almost beyond endu rance, being obliged to sit up night after night, from inability to sleep in bed.

Last Fall I felt the symptoms earlier than usual in the season, but hearing that Dr. Swayne's Com-pound Syrup of Wild Cherry was a sovereign remedy for Diseases of the Lungs, I immediately commenced its use, and the result was almost immediate relief. For the last six weeks I have not

felt the least symptoms of the Asthma, and fee

confident that I am well of it, and that I have been Yours respectfully, J. W. KRIGHT,
Walnut street, between 3d and 4th. Important Caution--Read! Read! There is but one genuine preparation of Wild Cherry, and that is Dr. Swayne's, the first ever offered to the public, which has been sold largely throughout the United States and some parts of Europe; and all preparations called by the name of Wild Cherry have been put out since this, under cover of some deceptive circumstances, in or-der to give currency to their sales. Each bottle of the genuine is enveloped with a beautiful steel engraving, with the likeness of William Penn

thereon; also Dr Swayne's signature, and as a further security, the portrait of Dr Swayne will be added hereafter, so as to distinguish his prepa-Swayne's Celebrated Vermifuge! There is one thing which we know the opponents of our party have confidently predicted, that is, the development of a sectional spirit-of a spirit of rivalry between the upper and lower sections of the district—between this place and Fayetteville-between New Hanover and Cumberland counties. We are happy to see the triumphant negative which the vote of Cumberland puts upon this. She comes out in her strength, and casts her vote as cheerfully for Wm. S. He was chairman of the National Whig Executive Committee at Washington, appointed during the last Presidential campaign; and we suppose he construes his commission as running till 1852."

This elegant epistle is couched in the following words. We call attention to it, especially from those who are disposed to talk against executive interference in elections :-"I have understood that some dissatisfaction has been felt in your State by reason of the impression, more or less prevalent, that the new Administration has not done justice to Indians. I beg to assure you if there is any foundation for such an idea, it is not my fault. THE ELECTION IN TENNESSEE. - The elecion held in this State, on Thursday, for Governor and representatives to the next Congress, is likely to result, so far as regards the contest for the Gubernatorial Chair, in favor of the democratic candidate. But nine counties have been heard from, and if Trousdale, the democratic candidate, gains with equal ratio in the counties to be heard from, he will be elected by about 3000 majority.

The returns from the Eighth Congressional district have been received, which state that A. Ewing, democrat, has been elected to Congress, by a majority of 100. His antagonist was W. Cullum. At the last Presidential election, the Eighth

district gave Gen. Taylor a majority of 1,211.

THE "HEROIC AGE."-We understand that some of our whig friends feel considerably scandalized by our republication from the Washington Union, of a series of articles, signed "Heroic Age." We don't blame them for it. It is hard for any one to enjoy a joke day after they may see this notice. when it goes too strong against themselves .--But they forget the good it does some of our democratic friends to whom a good laugh is better than physic. Why, we know one gentleman in feeble health, to whose life it has no doubt added years, it does him so much ra deaths, and 62 during the week. good. Really, for his sake, if nothing else, we must continue to publish these said papers. We must not have the sin upon our head of being instrumental in shortening any man's days, by refusing him of an enjoyment so necessary to his comfortable existence.

In addition to this, they nearly all believe that a man's time is fixed, and that it is scarcely worth his while to try and

avoid it. The Republican relates the follow-

What is amusing even in so serious a matter as an attack of the cholera, is the uniform pertinacity with which its colored subjects will deny to their medical attendants that they have eaten anything which could make them sick. An eminent physician of our city informed us that on being called to a negro suddenly attacked with cholera, he asked him whether he had been eating fruit or vegetables. 'Oh, no, sir,' was the reply, 'nothing of the kind. What, have you eat no apples or cherries? 'No, no,' said the negro, 'I never eats 'em any time of the year.' believe you have,' said the Doctor, 'and I'll prove it in a short time.' The physician adninistered a vomit, the result of which was the ejection of about a quart of apples, stems, seed, and all! 'Well,' said the Doctor. 'I thought you told me you had not been eating apples. Look at those. Are they not apples They does look like 'em, sir.' not apples? Notwithstanding the wailings and lamentations of the Union over the removals that have been made, many more are contemplated. and will doubtless be shortly made. Mr. to be pursuing the same course."

The rule established by the cabinet, it would seem from the foregoing statement, is, that if a clerk has been steady, prudent and economical, he is to be removed. And to carry the rule out in its true spirit, we suppose none but pauper whigs are to be appointed to the places of the thrifty clerks who may be removed. But the paragraph contains another precious acknowledgment. It seems that Mr. Meredith, as well as Mr. Collamer, has in his employment a committee of common informers, to pry into the private affairs of clerks. and report them to their employers. When time was a practice so base and infamous ever hefore resorted to by heads of departments?-Never. Such dishonor and infamy were reserved only for the administration of the present "counterfeit presentment" of the immortal Washington. - Wash. Union.

Last year the whig press of Georgia groaned with editorials and communications, going to prove that Gen. Cass and his supporters at the North were Free Soilers. Now they talk about coalitions in the non-slaveholding States, between the supporters of Cass and Van Buren, on the Proviso question. Can these editors tell how coalitions can be formed, if the whole body of the Northern democracy were Wilmot Provisoists, as they alleged they were last summer? But admitting that the Northring money freely to get up a cry in his favor, they have been losing ground at home by the ting money freely to get up a cry in his favor, they have been losing ground at home by the ting money freely to get up a cry in his favor. Heroic Age," written in Washington, sent tions before him moved in its round of duties; went, The Lord want I in a fix then? At amalgamation of Northern whiggery with the abolitionists, and finally seeing Gen. Cass de feated by a union of Southern slaveholders with Northern abolitionists, are about changing their ground to recover their last power, whose fault is it? If the whigs of the South had refused to support such a man as Millard Fillmore, and united with the democrats in sustaining a Northern man, who had always been a friend to she South, we would now have nothing to fear, for the entire democratic strength of the North, until very recently, has always been with the South.

The democracy of the North have stood up boldly for the rights of sovereign States, while the whigs of the South have banded with Hartford Conventionism, and abolitionism, at the North-and by their combined action, defeated Gen. Cass, and prostrated for a season, the democratic party. The democratic party of the North will be true to its principles as in time past-but the cries of Southern whiggery, to be "saved from its friends," will hereafter, pass the democratic ear unheeded and uncared for. One of our conscientious heads of department determined that, so far as his office was concerned, everything should be done decently and in order. He submitted a list of his subordinates to a committee of citizens, supposed to have been of the Rough and Ready Club, with the request that they would mark the objectionable ones, detail their faults and offences, state their pecuniary condition, and give the names of those who had families. This list, after undergoing a full investigation, was returned, with a list of some twenty or thirty names marked as fit victims for the slaughter. A committee of two of the accepted office-holders, with the head of the department, then retired of recounting to his delighted auditory, and that too with a truthfulness, and, convining investigation, a few were struck off the cing suasion of manner, that might have caused black list, and the balance were removed.—

Tobacco Dust as a Protection against In sects.-We last year procured from a snuff mill a barrel of dry, but damaged snuff flour, and prepared dredging boxes, covered with fine bolting cloth, with which we sifted it over the surface of any plants attacked by insects, and with most signal success. The snuff should be applied, if practicable, while the plant is wet with dew, and repeated after every shower. If the boxes are properly made, (like a common flour dredge,) and the snuff is perfectly fine and dry, but little time is necessary to go over an acre of plants .is necessary to go over an acre of plants.—

Even the rose bug, cabbage louse, thrips on grape vines, &c, all yield to the influence of snuff, and the most delicate plant of the hothouse is not injured by its application. For field vegetables, caustic lime, made into a fine powder, while dry, and applied before slaking by contact with the air, will produce similar results.—Prof. Manes.

Solid Milk.—A Mr. Felix Louis, of Southwark, England, has lately taken out a patent in England, for preserving cows' milk, goats' milk, &c., by converting it into solid cakes which are soluble in water, and which may be kept for a long time without losing their original sweetness. The process consists in using some loaf sugar, agitating the milk, evaporating it by heat, and then pressing it into cakes, while soft, and evaporating them to dryness after being moulded.

Curious Disposition of Money.—Mr. David Dunlap died at Portland, in Calloway county, Mo., a few days since. It was known that he was possessed of a considerable amount of money, but none of it could be found about his clothes or baggage. Some days after, it was recollected that he had pockets in an under-shirt, which had not been taken off at his death, and it was conjectured that the treasure might be found there. Acting under this impression, the grave was opened, the shirt examined, and \$2,225 found in his pocket. The supposition was, that he died of cholera, but this did not prevent a reclamation of the money.—St. Louis Republican, 16th ult.

Rearing Lambs.—Like all other young stock, lambs ought to be kept steadily growing without getting too fat. Where a healthy strong, and young ewe has a good range of pasture, the lamb may acquire so much fat as seriously to interfere with its thrift when taken away and put upon its winter's food.—Experienced flock masters say they have frequently lost lambs from this cause; and that when an ewe has twins, and the milk is divided between the offspring, this loss never occurs. This is an important fact for the practical man —Agriculturalist.
